REMARKS

The figures of births and deaths shown in this statement for week ending the 30th April, 1955, relate to 185 towns with an estimated population of 25,545 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 62% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,621 and 6,566 representing birth and death rates of 29.8 and 13.4 per thousand of population, respectively.

(a) *States (Part A & C).*—The data here relate to 167 towns with an estimated population of 22,857 thousands. Information about Ajmer, Bhopal, Bihar and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 66% of the total number of towns representing 70% of the total population is covered. The number of births and deaths

recorded in these towns were 13,562 and 6,075 representing birth and death rates of 30.9 and 13.8 per thousand of population, respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 18 towns with an estimated population of 2,688 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 38% of the total number of towns representing 42% of the total population is covered. The number of births and deaths recorded in these towns were 1,059 and 491 representing birth and death rates of 20.5 and 9.5 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
